

‘SR’ QUOTES

*- Theft may be considered to be virtuous or evil.

It can not be virtuous up to a certain level and then become evil above that level

*- There are only two items of *WORTH*.

1. Items created and belonging to the planet
2. Items created or produced by human beings

* If you want or need someone else to do or accomplish something.

The very minimum requirement is that you need to provide them with detailed procedures and instructions that they can understand and follow.

*- The only human right is the right for self preservation through compassion for humanity and their plight.

*- When we consider that every human being has the right to pursue their own opinion, humanity is doomed. There is such a thing as Truth (no matter how elusive) and the recognition of its power can free humanity.

*- Self serving interests that exclude recognition of effects on others are counter survival of humanity.

*- All global social deteriorations are the result of production and consumption. Individuals consume and corporations produce.

*- The solution to a perceived problem can only be found and formulated when the true nature of the problem can be isolated and understood.

*-Do not explain what you ‘do’ do but what you ‘could’ do to divert social decline.

*-If a problem is not recognized, a solution can not be formulated or proposed.

*-A Goal is not a Path.

A Goal is something sought or desired. A Path is something that has to be created and is based upon practical components that can be implemented and followed to the reaching of the Goal.

*- There are many individual who consider the existing “WEALTH GAP” to be anti-survival for the top of the wealth pyramid but who then pursue the road of climbing up the wealth pyramid to reach the top of that wealth pyramid. Thus they are unable to face the true facts of what is and is not in relation to that subject or any other. This is the true nature of the ‘LONE INDIVIDUAL’

To Every Human Being

“You and the Body” then

- You are not a body who has a spirit
- You ‘are’ a spirit (being) and have a body
- The body has a Stimulus Response mechanism
- The being has the capacity to create and be aware
- The body dies and the spirit lives on to inhabit another body
 - The spirit (you) never dies
 - The body is controlled by the brain
- If the body is controlled by the brain, who controls the brain
 - You guessed it YOU.
